

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Warwick

report date 08 Jul 2014

Yarding Change  $\frac{1302}{252}$

comparison date 01/07/2014

Numbers increased by 24% and the cold, dry conditions were reflected in the overall quality of the yarding, with this most noticeable in the young lightweight cattle. A fair panel of export processor and feeder buyers was present and operating, along with a few restockers. Buyers were very selective in the young lightweight section and prices generally could not maintain the previous week's level. Medium and heavy weight yearling steers and heifers to feed sold to strong competition. The very small selection of heavy grown steers and bullocks gained 10c/kg. Cows sold to a mixed trend, with the good heavy cows receiving strong support from processors, however the lighter and lesser condition lines fell in price by 7c to 11c/kg.

Calves to the trade averaged 130c and those returning to the paddock averaged 152c and made to 170c/kg. Vealer heifers to feed averaged 146c and a small selection of local and southern processors averaged 137c, with the occasional heavy class to the butcher trade at 189.2c/kg. Medium weight yearling steers to feed averaged 170c and made to 190c, and heavyweights sold to similar money to average 180c/kg. Poor quality lightweight yearling heifers averaged 103c/kg. Medium weights to feed generally sold in the mid-150c range, with some to 166.2c/kg.

A small sample of heavy grown steers made to 179.2c to average 176c and a handful of bullocks made to 176.2c to average 165c/kg. Medium weight plain condition cows averaged 71c and the 2 scores 93c, with sales to 107c/kg. Good heavy cows made to 144.2c to average close to 134c/kg. Heavy bulls made to 166.2c/kg.
