

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Queensland

report date

15 May 2015

Average prices lifted again this week, following similar gains in the physical market and reports of southern supplies becoming more difficult to source following recent rain. While gains of 8-14¢/kg cwt were recorded across grass and grainfed lines, average Queensland prices are still at a discount to the southern states.
