

## Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

## **Eastern States**

report date 29 May 2015

Price momentum continued amongst out of the paddock quotes, with most lines up 5-10¢/kg lwt - however, it should be noted, some contributors remained firm and several prices quoted were reflective of movements the week prior. The physical market experienced a mixed trend, with medium and heavy weight yearling steers easing 4-8¢/kg lwt, while yearling heifers and grown steers found greater support, albeit making up a smaller portion of the yarding.
