

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Queensland

report date

16 Oct 2015

The Queensland over-the-hook cattle indicators recorded substantial reductions this week, with most lines back 20-30¢/kg cwt. The falls were registered across both grass and grainfed cattle, to put most quotes in line with where they were five weeks ago. With the public holiday last week, Queensland cattle slaughter declined 7% week-on-week, to 69,000 head - the lowest weekly kill since Easter.
