

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Warwick

report date 24 Jan 2017

Yarding Change 1120
-259

comparison date 17/01/2017

There was a reduced penning this week with all categories showing fair representation. The quality and condition of the offering was quite mixed with lower numbers of supplementary fed cattle penned. The quality of the heavy grown steers was well down for the most part. The buying group was similar to the previous sale. Demand for all classes was again high although quality variations did bring about price changes in some categories.

Market trends in the young cattle saw the vealers and light weight yearling steers sell firm to slightly cheaper. The heavy yearling feeder steers saw little but quality related price changes on a firm market trend. There was also a little more competition. Yearling heifers to feed remained firm. Light weights to restockers sold to a dearer trend.

Heavy grown steers remained firm with quality variations accounting for most of the price change. There was little but quality related price change in the cow market.
