AuctionsPlus Pty Ltd. Market Comments Week ending 03/06/2011

Sheep and lamb numbers, like the market, continued to contract finishing the week with 32,362 head, down 8,000 head on the previous week. Cattle numbers also retreated by 2,000 head finishing the week with 4,653 head.

The sheep and lamb market has been hanging on all week, but interestingly we are still witnessing a good interest in the market with over 200 registered buyers logging into Tuesday's sale. Sadly the passed in rate remains at a high level with vendors prepared to sell if the price is close to their expectations.

A few more wethers were available this week and buyers are now looking at much lighter weights to fill export orders and this is positioning them against strong competition from restockers looking to increase their woolcutters with a line of 1,260 Merino wethers at Walgett, 11/12 months weighing 42kgs liveweight, selling to a South Australian buyer for \$93, with another 1,000 older 20/22 month old 49kgs liveweight wethers also heading to South Australia for \$95.50.

The better end of the Poll Dorset/Merino mixed sex lambs is still achieving \$105/120, so that market is still a good cash generator for the sheep producer. 1st cross ewe lambs at Coonamble 6/9 months and weighing 37kgs liveweight sold for \$145, while Merino ewes 5/7 years, scanned in lamb to Border Leicester rams that were part of the Gnadbro dispersal at Wagga, sold for \$161.

The wool market remains firm, the \$A less volatile and numbers contracting in most markets, so while we have seen another correction this week the outlook would still appear positive.

An increase in buyers has seen today's cattle market achieve a considerably better clearance than previous weeks.

Top quality Droughtmaster cross steers at Cloncurry 9/14 months and weighing 250kglw, sold for 232 c/kg, while their sisters sold for 192.2 c/kg. Hereford cows and calves at Cunnamulla made \$910, while PTIC Angus cows at Inverell sold to \$1,180 and at Captains Flat Angus heifers 20/22 months PTIC sold to \$1,220.

At Tamworth Angus steer weaners weighing 266kglw sold for 250c/\$665, while at Bordertown Angus steers weighing 342kglw were passed in at 231c/\$790.

The Angus Online sale saw PTIC Angus heifers 22/23 months at Deniliquin sell to \$1,275 and Angus weaner heifers at Coonamble weighing 316kglw sell to \$675.

While the events depicted during the Four Corners programme last Monday night have produced enough bad publicity for Australian cattle producers to last a lifetime, the one positive solution that I have read this week was in the email from Beef Central this morning in an article by Jason Nason, who interviewed Dr Mohammed Lotfi of Australian Halal Food Services, a company that specialises in Halal slaughter techniques.

Dr Lofti stated that "the focal point of Islamic slaughtering is the humane treatment of animals". Dr Lofti went on to say "that the use of stunning as an animal welfare measure prior to slaughter was an acceptable procedure under Halal slaughtering techniques and the use of non-penetrating Percussive stunning complied with the Halal requirement that the animal

must be alive at the time of slaughter. For this to be determined the animal's heart must be beating when it is slaughtered".

MLA and Livecorp have already invested in the restraining boxes located in these abattoirs, so surely the immediate solution would be to quickly invest in the stunning equipment required, together with the education, training and monitoring (policing) as matter of priority and at our cost. I am sure both country and city dwellers never want to witness the sight of any animal being treated in this manner again, particularly when they have originated from Australia.
