 Week ending 29/04/2011

Thursday was the only sheep selling day for us for the week and accordingly numbers were back dramatically to 13,213 head. Cattle were uninterrupted and totalled 9,346 head.

Sheep and lambs have been easing over the past three weeks but this week marked the largest fall for some time. Admittedly many have argued the bar was set too high and it had to come back, but the reality is forward contracts are strong and buyers are sending a clear message that it will be worth growers while feeding their lambs to meet winter markets should the season be tough. A good solid fall of rain may change the complexion of things very quickly.

Cattle eased as well today - the bigger lines of top quality weaners made towards 290c/kg for the lighter end and most calves, 250 - 300 kg were in the 240-260c/kg bracket. Heifer calves, 220 to 250 kg in small lot sizes were looking quite a bit cheaper and it's probably fair to say this trend will continue easing with coming winter conditions.
