

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Roma Store

report date 07 Jun 2011

Yarding Change 5519  
-162

comparison date 31/05/2011

Cattle were drawn from a wide area across south west and central west Queensland. A full panel of buyers were present and operating which included a good number of restockers who appeared more selective when purchasing this week, as colder weather conditions begin to prevail. Southern processor buyers showed solid interest in vealer heifers and good quality light weight yearling steers reached 257c/kg. The restocker buyers also set the trend for the medium weight yearling heifers instead of the usual feedlot buyers with a top of 201c/kg achieved.

Vealer heifers sold to 211c and averaged 205c/kg. Light weight yearling steers made to 257c and averaged 231c, as the medium weight yearling steers topped at 224c and averaged 208c/kg. Heavy weight yearling steers to feedlots hit 194c and averaged 185c/kg. Light weight yearling heifers reached 214c and averaged 205c, while D muscled lines sold to 166c and averaged 163c/kg. Medium weight yearling heifers to restockers made to 201c and averaged around 192c/kg. A small sample of heavy weight yearling heifers to the trade averaged 170c, while those sold to feedlots averaged 157c/kg.

A few grown steers to feed topped at 172c and averaged 170c/kg. A few pens of average quality PTIC grown heifers peaked at 162c and averaged 154c/kg.

Medium weight 3 score cows averaged 133c while medium weight 4 score cows averaged 150c/kg. Cows and calves sold to \$840 and averaged \$758/unit.
