report date 14 Jun 2011

Yarding Change 4250
-1269

comparison date 07/06/2011

Cattle numbers declined after light unseasonable rainfall over the weekend across the south west supply areas. Cattle were drawn from a wide area around south western Queensland and northern New South Wales. Overall quality was very mixed with good lines of weaner steers and heifers maintaining usual rates, although lesser quality was up to 20c/kg cheaper in places. Light weight yearling steers sold 5c easier, while heavy weight yearling steers contained a large number of Brahman sorts of cattle and declined 6c/kg on average. Light weight yearling heifers sold well but cows struggled to hold last week's prices.

Vealer heifers topped 204c and averaged 202c, down 3c/kg. Light weight yearling steers made to 258c and averaged 226c, down 5c/kg. Medium weight yearling steers returned to the paddock for up to 211c and averaged 188c, down 20c/kg. Heavy weight yearling steers to feed reached 185c and averaged around 180c, down 6c, while those sold to restockers earned to 184c and averaged 180c, down 15c/kg. Light weight yearling heifers to feedlot buyers sold to 206c and averaged 197c, up 6c, while those to restockers made to 215c and averaged 208c, up 3c/kg. Medium weight yearling heifers to feed reached 195c and averaged 190c/kg. A few good quality PTIC heavy weight yearling heifers averaged 196c/kg.

Medium weight 2 score cows returned to the paddock for up to 129c and averaged 124c/kg. Medium weight 3 score cows made to 139c and averaged 128c, down 5c/kg. Medium weight 4 score cows topped at 142c and averaged 137c, down 13c/kg. Cows and calves sold to \$860 and averaged \$712/unit.
