

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Queensland

report date

01 Jul 2011

Rates were firm across the board as most processors keep rates on hold. The softer price trend created by the subdued demand has seen producers begin to reduce supply, particularly in the physical markets. Grain fed meat demand is still sluggish, leading to more beef products going into storage.

No trend is quoted as a regular contributor resumed sourcing cattle.
