

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Wodonga

report date 02 Aug 2011

Yarding Change $\frac{1020}{20}$

comparison date 26/07/2011

Numbers remained steady however vealer steers and heifers were in short supply. Feeder steers were well represented while there was a mixed supply of yearling heifers and steers suitable for the trade. Heavy grown steers and bullocks were in limited numbers and there quality was very good. The regular gallery of buyers were present and competition was weaker across all trade categories.

The mixed supply of prime vealers was 4c to 6c cheaper with some sales suffering greater falls and an exceptional European cross steer sold to a top of 259.2c/kg. Vealer steers and heifers suitable for restocking were keenly sought with light heifers reaching 220.2c and most of the better C2 light weight steers made 180c to 217c/kg. Medium weight yearling steers suitable for the trade held firm averaging 205.2c while the heifer portion averaged 187.6c/kg.

The mixed selection of grown steers and bullocks sold to strong demand with prices lifting 5c/kg. The C3 and C4 heavy weights ranged from 175c to 193.2c, while heavy milk tooth steers attracted strong competition from lot feeder buyers to average 192.6c/kg.
