

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Warwick

report date 04 Oct 2011

Yarding Change $\frac{921}{34}$

comparison date 27/09/2011

There was a small increase in supply and overall quality was mixed, however some very good vealers and yearling steers and heifers were included in the line-up. Restockers remained very active on the plain condition lines pushed on by strong support from feeder operators, while local butchers battled to secure the better presented lines. A relatively small selection of bullocks sold to a dearer market, while cows remained fully firm on recent improved prices.

Calves to restockers made to 272.2c with most at 250c/kg. Vealer heifers to butchers as well as southern and local processors sold into the mid-230c/kg range with most at 227c/kg. Lightweight yearling steers to feed averaged 222c and medium weights close to 218c with some to 234.2c/kg. Medium weights to the trade averaged 223c and sold to 245c, and a fair sample of heavy weights averaged close to 206c/kg. Lightweight yearling heifers to feed averaged 207c and medium weights to the local trade market sold to 231.2c to average 215c/kg.

Bullocks averaged 201c with the occasional pen to 206.2c/kg. Medium weight 2 score cows averaged 143c and 3 scores 150c/kg. Good heavy cows made to 170c to average 164c/kg. Heavy bulls made to 166.2c/kg.
