

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date

23 Mar 2012

Direct to works rates were mixed overall with young cattle showing a slightly stronger trend, while grown cattle rates were weaker. Cattle supplies have increased in recent weeks and this expected to place further pressure on the market. Export demand remains sluggish and the A\$ is affecting trading conditions.

No trend is available this week.
