

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

report date

13 Apr 2012

Another short trading week and the majority of contributors have opted to leave their rates unchanged. One contributor adjusted their rates down 10c/kg cwt across the board. Consigned cattle are in good supply and their quality has remained of a high standard. Weak demand from the domestic and export markets has continued to place downward pressure on rates.
