

## Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Eastern States

report date 15 Jun 2012

Prices remain firm as sufficient numbers are being offered by producers with only a couple of feedlots adjusting their prices. The disruption to trade during the past two weeks has been a contributor to the subtle variations in price.

At physical markets last week feeder prices were firm to slightly dearer across the board, although grown steers were the exception.
