

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### New South Wales

report date

06 Jul 2012

Rates have remained unchanged again except for a slight decline recorded to MSA rates from a contributor. Cattle supply has remained steady however any influx may have a negative impact on rates. The current demand situation has meant that a number of processors are only sourcing minimal numbers on a weekly basis rather than having too many cattle booked in advance. The varying A\$ is continuing to impact on exporters, while uncertainty remains around the introduction of the carbon tax and its effect on the processing sector.

Grade	Weight Range (cwt kg)	Dentition	Muscle Score	Fat Score	Low Price (c/kg cwt)	High Price (c/kg cwt)	Average (c/kg cwt)	Trend
