report date 17 Jul 2012

Yarding Change 1405
-8595

comparison date 10/07/2012

The return to wet weather across the supply area severely reduced numbers. Overall quality was mixed and a full panel of buyers were present and operating. Feeder and restocker operators together with trade buyers battled to secure numbers and lifted prices on the poorer quality classes. The short supply of export lines sold to a firm to dearer trend.

Lightweight yearling steers to restockers and feed averaged 214c and 216c respectively with sales to 226.2c/kg. Medium weight feeders averaged 196c and sold to 210c, while D muscle lines averaged 181c/kg. A relatively small sample of heavy feeders averaged 190c and made to 193.2c/kg. Lightweight yearling heifers to the trade mostly sold around 198c with sales to 210.2c/kg. Medium weight feeders averaged 183c and sold to 190c and poorer quality lines averaged in the 170c/kg range.

A handful of heavy steers and bullocks sold from 175c to 180.2c/kg. A pen of plain cows returned to the paddock at 128.2c and 3 scores to processors averaged 137c/kg. Good heavy cows made to 162.2c to average 4c better at 154c/kg. A few heavy bulls made to 170.2c to average 165c/kg. A consignment of PTIC cows sold open auction generally sold around \$780 to \$790/head.
