 Xarding Flange - 1512
 7068 - 1512
 comparison date
 24/07/2012

Good numbers of cattle were drawn from the south-west Queensland supply area. Quality varied from average to very good with some cattle in plain condition due to the ongoing cold, winter weather. A full panel of buyers were present with restockers becoming more selective on light weight weaner cattle as the sale progressed. Meanwhile, feedlot buyers snapped up quality domestic feeder weight steers and southern processor buyers displayed keen interest on the light weight heifer classes.

Light weight yearling steers returned to the paddock at a high of 246c and averaged 217c/kg. Medium weight yearling steers to feed sold to 215c and averaged 200c, while those bought by restockers hit 234c and averaged 213c/kg. Heavy weight yearling steers to feed made to 198c and averaged 190c/kg. Light weight yearling heifers to feed reached 200c and averaged 192c, while those to processors made to 211c and averaged 194c and those to restockers earned to 205c and averaged 194c/kg. Medium weight yearling heifers to feed sold to 194c and averaged 186c, while those to restockers reached 193c and averaged 170c/kg. Heavy weight yearling heifers to feed sold to 196c and averaged 189c/kg.

Grown steers to feed made to 172c and averaged 166c/kg. Medium weight 3 score cows topped at 138c and averaged 135c, while 4 score medium weight cows reached 147c and averaged 143c/kg. Heavy weight 2 score cows returned to the paddock at an average of 124c, while heavy weight 4 score cows earned to 155c and averaged 144c/kg. Cows and calves sold to \$890 and averaged \$807/unit.
