

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Toowoomba Landmark

report date 18 Mar 2013

Yarding Change ⁸¹²/₁₆₂

comparison date 11/03/2013

The small increase in supply contained a mixed quality line-up of young cattle a fair supply of bullocks from local areas plus a good consignment of cows from western districts. A fair panel of feeder operators and restocker buyers was present in the young cattle section, however not all the usual export processors were in attendance. A selected few lightweight cattle met good competition, however the remainder suffered price reductions of 10c/kg and considerable more in places. Bullocks sold to a market 8c to 10c cheaper and cows also experience price reductions of 2c to 10c/kg.

The occasional vealer steer with show ring potential made to 239.2c with the remainder around 190c/kg. Lightweight yearling steers returning to the paddock averaged 195c and made to 200.2c/kg. Medium weights averaged 177c and sold to 183.2c and D muscle lines averaged 163c/kg. Lightweight yearling heifers sold to feeder operators at 183.2c to average 173c/kg. A fairly large consignment of supplementary fed medium weight yearling heifers averaged 161c and sold to 166.2c/kg.

Bullocks mostly sold in the mid to high 160c range with a few to 171.2c/kg. Medium weight poor condition cows averaged 107c and 3 scores 129c/kg. Good heavy cows from western districts managed to make to 151.2c with most of the good cows at 143c/kg. Heavy bulls made to 156.2c/kg.
