

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Toowoomba Landmark

report date 13 May 2013

Yarding Change <sup>543</sup>  
-101

comparison date 06/05/2013

The similar size yarding to the previous week included some supplementary fed bullocks from western districts, with a few pens of cows and export heifers, and young cattle in the largest numbers. Not all the usual export processors were in attendance and buyer representation in the young cattle section was also not as good as the previous week. Apart from a few supplementary fed bullocks improving in price, all other classes of young cattle and cows continued to lose ground in price.

Vealer heifers generally sold in the 130c/kg range with only selected sales to the trade at 164.2c, and some D muscled lines averaged 110c/kg. Medium weight yearling steers to feed averaged 150c, while heavyweights lost 5c to average 152c and sold to 155.2c/kg. A fairly large supply of D muscled yearling heifers averaged from 114c to 120c, with sales to 131.2c/kg.

Supplementary fed bullocks made to 167.2c, to average close to 160c/kg. The majority of the cows were heavy 4 scores and averaged 112c, selling to 119.2c/kg. Heavy bulls made to 157.2c/kg.
