

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Toowoomba Landmark

report date 08 Jul 2013

Yarding Change ⁶⁸⁰/₃₅₃

comparison date 01/07/2013

The larger yarding contained a good mix of young cattle and increased numbers of full mouth bullocks and fair selection of cows. Buyer representation was not as good as the previous sale, and despite the reduced buying panel export slaughter classes improved in price. Apart from some selected lines most of the young cattle lacked restocker and feeder support and prices decreased accordingly.

The occasional vealer steer returned to the paddock at 190.2c with most at 163c/kg. A fair supply of vealer heifers mostly sold in the early to mid 150c range with the occasional sale to 173.2c/kg. Lightweight yearling steers returning to the paddock lost ground to average 166c and D muscle lines 148c/kg. A small selection of medium weight yearling steers to feed averaged 161c and a short supply of heavyweights averaged 168c and sold to 172.2c/kg. Lightweight yearling heifers to the trade and restockers averaged close to 140c and medium weights to the trade averaged 156c/kg.

A few good bullocks made to 171.2c, while full mouth classes were in the largest numbers and averaged 160c and sold to 168.2c/kg. The vast majority of the cows were good heavy cows from western districts and most sold around 128c, with an isolated sale to 141.2c/kg. Heavy bulls made to 150c/kg.
