

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Great Southern Saleyard

report date 19 Sep 2013

Yarding Change $\frac{792}{100}$

comparison date 12/09/2013

Included in the slightly larger yarding were similar supplies of prime trade and heavy weight steers and heifers, moderate cow volumes, similar local store grades, with the increase due to larger volumes of dairy store steers.

Trade weight yearling steer and heifer quality remained fair. Local trade demand diminished comparative to the previous week. There was a decrease in overall store quality and this created a more selective restocker and feeder demand with most classes cheaper, while dairy and dairy cross store steers enjoyed reasonable restocker inquiry.

Heavy weight steer quality was solid with an equal trade inquiry recorded, while heavy weight heifers, cows and bulls also suffered price reductions due to weaker processor competition.
