

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Warwick

report date 11 Mar 2014

Yarding Change <sup>2760</sup>  
658

comparison date 04/03/2014

The rapid deterioration in seasonal conditions combined with some positive prices in places lifted numbers to a record level. There was a wide variation in quality across all classes. The usual panel of export processor and feeder buyers was present and operating along with some additional feeder operators. The trend of young lightweight cattle being hard to sell continued with losses of 7c to 20c/kg fairly common. However heavy yearling steers to feed lifted in price by 8c and this trend also flowed on to the medium and heavy weight yearling heifers. Heavy grown steers and bullocks sold to a market 2c to 6c/kg cheaper. The record number of cows penned experienced price reductions of 5c to 13c/kg nevertheless lightweight poor condition lines continued to attract strong buyer competition.

A fair sample of calves returned to the paddock at 102c with sales from 78.2c to 143.2c/kg. Vealer heifers lost 12c to 18c with the largest number at 117.2c with isolated sales to local butchers at 188.2c/kg. Lightweight yearling steers returned to the paddock and feed averaged 144c and 150c/kg respectively with D muscle lines at 113c/kg. Medium weights to feed mostly sold from 163c to 172c while heavyweights ranged from 164.2c to 189.2c/kg. The best of the lightweight yearling heifers averaged in the 120c/kg range while the poor quality lines sold from 78c to 110c with some drought affected classes 20c to 54c/kg. Medium weights to feed averaged 155c and a small selection of local trade lines made to 171.2c to average 162c/kg.

Heavy grown steers averaged 178c and made to 184.6c and bullocks sold to a similar amount to average 173c/kg. Lightweight drought affected cows made from 20c to 59c and the medium weights averaged 83c and made to 102.2c/kg. Medium weight 2 scores averaged 106c and the 3 scores 128c/kg. Good heavy cows made to an isolated 153.2c with most at 143c/kg. Heavy bulls made to 154.2c/kg.
