

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Pakenham

report date 15 Jun 2015

Yarding Change $\frac{1764}{269}$

comparison date 01/06/2015

There were approximately 750 export and 1,000 young cattle penned representing an increase of 270 head from the sale of a fortnight ago. There was a full field of buyers present and operating in a cheaper market overall generally due to quality. Quality was mixed with some very good grain and crop assisted drafts offered, along with many plainer winter affected cattle. Demand was solid from processors for the better finished lines however the winter coated cattle affected most averages. The vealers eased 3c to 10c/kg for a limited selection. Yearling trade steers eased 7c to 12c/kg for most while the steers to feed on were mixed but generally firm. A much better quality run of yearling heifers sold dearer overall but once categorized they sold at similar prices to last sale. The better end of the grown steers and bullocks sold firm to 3c easier while the secondary lines slipped 11c/kg with quality an issue.

The vealers sold mostly from 240c to 305c/kg. Yearling trade steers made between 271c and 300c/kg. Yearling heifers suited to the trade sold between 235c and 300c/kg. Feeder steers made from 232c to 291c/kg.

Grown steers sold from 255c to 309c/kg. Bullocks made between 262c and 308c/kg. Heavy weight grown heifers sold between 223c and 270c/kg. Heavy weight Friesian manufacturing steers made from 222c to 226c, with the crossbred portion from 235c to 265c/kg.
