

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

NVLX Barnawartha

report date 14 Jul 2015

Yarding Change 1721
-803

comparison date 07/07/2015

Numbers decreased moderately, in what was a better quality yarding of cattle compared to the previous week's sale. The usual domestic and export buyers were present and competed in what was a dearer market, lifting prices 10c to 20c/kg across most categories. Well finished, supplementary feed cattle suitable for the processors, were in good supply. There were also quality, well-bred lines of stock on offer, suitable to both the feedlot and restocker.

Vealer steers and heifers to suit the trade were in short supply. The heavy veal steer portion was 14c dearer and traded between 284c to 337c, with the equivalent heifer portion selling between 233c to 318c/kg. The secondary lines of vealers sold between 286c to 312c for the steer and 250c to 295c/kg for the heifers. Yearling steers selling to the trade were up 3c to 18c and sold between 240c to 332c/kg. Feedlot buyers were purchasing yearlings between 264c to 326c, which was up 5c to 20c/kg on the previous week. Restockers competed on secondary lines buying between 271c to 318c/kg. Better quality yearling heifers were dominated by trade buyers, selling from 240c to 319c, which was up 4c to 14c/kg on the previous week's sale. Yearling heifers in the lighter weight grades were pushed along by the feeders, selling between 247c to 296c/kg.

Heavy trade and export cattle were well supplied. There was an excellent quality offering of grown steers and bullocks and lines of well finished supplementary feed cattle sold to strong buyer competition, lifting prices 9c to 46c/kg. Grown steers and bullocks traded between 245c to 335c to average 308c/kg. Heavy grown heifers were also well presented selling between 220c to 312c, up 9c to 48c on last week, to average 278c/kg.
