

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### New South Wales

report date

25 Sep 2015

The NSW over-the-hook indicators improved this week, particularly on the yearling and grown steer categories. However, the increases were not as strong as those north of the border and the Queensland and NSW steer indicators are now at similar levels, while the Queensland cow quote is at about a 40¢/kg cwt premium.
