

Slaughtermen and boners

We're busy and need more workers!

HW Greenham's Tongala plant in northern Victoria is processing more cattle and needs slaughtermen and boners.

Tongala is located near Echuca in northern Victoria. Echuca is the closest Murray River town to Melbourne and offers a wide range of water-based recreational and sporting opportunities. It is a paradise for fishing and boating enthusiasts.

The major regional city of Shepparton is also close by. Both centres offer excellent retail, sporting, educational and health facilities

Meat processing experience would be great but isn't essential. Suitable candidates without previous experience will receive full comprehensive training that is nationally accredited. It leads to a fully recognised meat processing trade qualification.

HW Greenham offer excellent wages and conditions. Meat processing is strenuous work and requires physical fitness and strength. Applicants will have to undergo a medical examination, and drug and alcohol screening. You should not apply unless you can meet these requirements.

The Tongala plant exports to the USA and Asia.

Applicants who have previously applied for these positions do not have to reapply.

Applications can be obtained from our office or at www.greenham.com.au.

Phone 03 5859 0912 and ask for Brett Scoble or Cheryl Lees, Recruitment Coordinators.
