

# GREENMOUNTAIN FOOD PROCESSING PTY LTD

**Location:**

Coominya, Qld

**Background**

Greenmountain Food Processing is a Beef & Veal Export Processor based in the Brisbane Valley in South East Queensland. The Processing facility is situated on 1000ac of stock holding and irrigation country.

**Position**

We are seeking a full-time manager to manage all operational areas of the farm to develop and maintain strong efficiencies across the supply chain. The successful candidate will have in-depth experience and knowledge of cattle handling and husbandry in addition to irrigation, cropping and stock feed experience. Strong management and operational experience and a high level of social, safety and animal responsibility is essential.

**Responsibilities**

In this "hands on" role you will be reporting to the Owner and the Site Manager working closely along with the senior management team. Your accountability will encompass all aspects of livestock husbandry, grazing management, pasture improvement and the implementation of the overall business strategies. The objective of this role is to optimise production in a sustainable manner and achieve long-term goals, increasing farm performance and profitability.

Responsibilities include

- Livestock receipt, livestock holding and production scheduling
- Grazing and pasture management.
- Cropping and pasture renovation.
- Fencing repairs and maintenance
- Independent work and manage a team of farm hands/livestock handlers
- General farm duties and machinery operation
- Managing the repairs and maintenance of farm assets and equipment, including machinery, irrigation pumps and equipment, troughing piping and water reticulation systems

**Experience and education**

We are seeking a competent Farm Manager with initiative and leadership skills. You will demonstrate a progressive approach to livestock management and be familiar with best practice principles of livestock handling.

You will be required to have

- Previous experience in a management role.
- Experience in beef and veal cattle handling
- Experience in irrigating, cropping
- Effective communication skills
- Computer literacy, budgeting skills
- Knowledge of work health and safety (WHS).

**Remuneration and Accommodation**

Accommodation is provided and part of an attractive remuneration package, negotiated to reflect experience and qualifications.
