

Livestock Analyst

- **Livestock Focus**
- **Corporate Agribusiness**
- **Dubbo Based**

A leading Australian based agribusiness with a strategic geographic spread of prime agricultural land is seeking an experienced Analyst to collaborate with the leadership team to operationally manage the day to day activities of their livestock business. With a strong working knowledge and understanding of livestock production and agribusiness operations in general, the Analyst will be critical in providing information through existing business systems to support farm managers in analysing their businesses activities and performance.

This includes but not be limited to providing detailed modelling, forecasting and analysis on operational activities, ensuring business intelligence systems are being fully utilised across the operations and assist with the development of budgets and reforecasting within appropriate timelines. The role will also provide monthly, quarterly, and annual reporting updates for management across multiple assets and identify and analyse opportunities to increase operational performance, timeliness, and profitability within risk frameworks.

This opportunity is ideal for a proven performer with a strong background in livestock who possesses a strong presence and the ability to work with the senior leadership team and build relationships with internal stakeholders. A very driven and proactive attitude and the ability to work collaboratively across the business as well as managing their output autonomously is critical.

To enquire further, please phone Nigel Crawley on 03 9645 5200 or Dave Compton on 0411 175 551.
