

Beefwood Farms

Beefwood Farms has two permanent positions available, **Assistant Manager** and **Workshop Manager**. Beefwood Farms is a grain growing operation in the Moree District. Our aim is to maintain a high standard in our farming operation, engaging the latest machinery and technology systems. Applicants ideally should have the following to be considered for the positions:

Assistant Manager

- 3 yrs experience in operating a wide variety of modern farm machinery eg: Spray rigs, planters, headers, loader
- A sound knowledge of GPS systems
- Current Chemcert certificate
- Having a good understanding of large machinery maintenance
- Have sound communications skills
- Working in a team environment, you should also be able to work independently

Workshop Manager

- Trade qualifications , or an individual with a large amount of mechanical and welding experience
- The position involves maintenance of all broadacre machinery and record keeping
- Have sound knowledge of computer / electronic skills
- Maintain a tidy and well organised workshop
- Also help with field operations in busy periods
- Have sound communications skills
- Working in a team environment, you should also be able to work independently

The successful applicants will be offered a competitive remuneration package in line with experience including on farm accommodation.
