report date 02 Jun 2014

Yarding Change 275
-382

comparison date 26/05/2014

The supply of stock almost halved the previous week's level and overall quality was very mixed, with young cattle in the largest numbers. Not all the usual buyers were present in the young cattle section and once again there was limited export processor attendance. Young cattle tended to improve in places, with good support from feeder operators restockers and the trade, however poorer quality lines received limited competition. The relatively small supply of cows experienced marginally better demand from processors.

Vealer steers to restockers averaged 178c/kg. Lightweight yearling steers to feed and restockers average 167c and 173c, respectively, with sales to 194.2c/kg. Medium weight yearling steers to feed made to 184.2c to average 173c/kg. Medium weight yearling heifers to restockers made to 168.2c and a few to slaughter averaged 158c/kg.

Medium weight 2 score cows averaged 102c and the 3 scores 117c/kg. A handful of medium weight 4 scores made to 126.2c/kg. The bulls made to 121.2c/kg.
