Market information provided by MLA's National Livestock Reporting Service

Queensland

report date

06 Mar 2015

With cyclone related disruptions to some central coast plants, Queensland adult cattle slaughter last week declined 7% week-on-week to just over 75,000 head. But, as seasonal conditions remain poor across much of the state, supplies continue to be made available for slaughter and prices eased again this week, with grass and grainfed lines back 5-12¢/kg cwt week-on-week. Note: due to a contributor note quoting this week, the trend has not been quoted.
