

## Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Eastern States

report date 06 Mar 2015

Feeder prices mostly eased week-on-week in both the physical market and out of the paddock sales. Physical market heifer purchase bucked the trend and improved on the previous week, shrinking the gap between feeder steers prices. Note: due to a new contributor quoting on the long-fed paddock price, the trend has not been quoted.
