

## Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Eastern States

report date 19 Jun 2015

The physical market surged following good rain across the east coast, with the largest categories up 14-24¢/kg. Feeder steers in NSW continued to be the dearest across the eastern states however Queensland, in part, closed the gap on Victoria, as greater numbers of restockers came out to compete against feeder buyers.

Paddock quotes saw more modest gains, with most categories up about 2¢/kg week-on-week. Note, while similar gains were recorded on domestic paddock sales, the trend has not been quoted as a new contributor has commenced quoting this week.
