

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Queensland

report date

17 Jul 2015

Across the state, average prices lifted again this week, particularly amongst the grass finished categories. While Queensland adult slaughter remains historically elevated, with a little below 89,000 head processed last week, contributors reported southern supplies were tightening. Please note, the grass fed grown steer trend was not quoted this week due to the return of one contributor.
