

Feeder report - cattle

Market information provided by MLA's National Livestock Reporting Service

Eastern States

report date 03 Jun 2016

Following widespread showers and tightening supplies across most eastern states, feeder prices continued a dearer trend this week. The majority of contributors lifted quotes, with saleyard sections recording the most significant improvement, and some export categories increasing as much as 13c/kg lwt. Please note, the domestic paddock sales trend is not included as a result of one contributor returning to quote.
