Yarding Change 322
-756

comparison date 14/06/2016

The very useful falls of rain over the supply area resulted in numbers falling to a very low level. A fair sample of yearling steers and heifers were penned along with a handful of bullocks and a relatively small selection of cows. Most of the usual buyers were present in the young cattle section, however not all the major exporters were in attendance. All classes of young cattle were in demand with restocker feeder operators and the trade providing much stronger competition with improvements of 10c to 20c/kg fairly common. The small sample of cows restricted price improvements to 3c to 4c/kg.

Calves returning to the paddock averaged 300c and made to 320c/kg. The occasional vealer heifer to local butchers made to 330c, while a few to feed averaged 311c/kg. Light weight yearling steers to feed and restockers mostly sold in the mid-to-high 330c range with some to 359.2c/kg. Medium weight yearling steers to feed made to 363.2c with most around 336c/kg. Heavy weight yearling steers to feed made to 338c to average 327c/kg. Light weight yearling heifers to feed averaged 318c and made to 335.2c while medium weights to feed averaged 323c and made to 331.2c/kg. Local trade lines of medium weight yearling heifers averaged 326c and made to 332.2c/kg.

A couple of bullocks made to 320c to average 319c/kg. Light weight cows to restockers averaged 219c while good heavy cows made to 265.2c to average 262c/kg. Heavy bulls made to 265.2c/kg.
