report date

03 Jun 2011

Vealer rates were reduced as a contributor withdrew their yearling quote, while all other contributors of young cattle quotes left their rates unchanged.

The withdrawal of lower priced grown steer quotes from one exporter plus another lifting their rate slightly resulted in an overall dearer trend. Cows and bulls averaged around 5c/kg cwt higher due to a few exporters lifting their rates to attract supply.

There is no trend quoted due to some regular contributors not offering rates.
