

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Toowoomba Landmark

report date 06 Jun 2011

Yarding Change $\frac{730}{255}$

comparison date 30/05/2011

Numbers were well up consisting of a fair supply of grown steers and cows however, young cattle made up a large percentage of the yarding. Quality of the young cattle was mixed with a few pens of well finished yearlings and vealers suitable for the trade, and some supplementary fed, along with some plainer grades.

Most of the vealer and yearling steers went to restockers and feeders with the better bred cattle making the premium rates. Trade cattle met keen butcher demand with limited supplies coming on to the market. Restocker and feeder steers and heifers sold on a strong market.

The yarding of export cattle consisted of a fair penning of steers and cows with quality fairly mixed, although there was several pens of supplementary fed cattle offered. Competition was stronger with steers selling to a dearer trend, while the cow yarding improved by 1c to 2c/kg.
