

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date 24 Jun 2011

Following on from the cheaper rates last week, further reductions were realised as the majority of contributors reduced their rates. All categories were affected with the young cattle showing the greatest falls. There is an increasingly wider gap evident between the finished cattle and the plainer lines with the plainer cattle supply lifting. Both the domestic and export trading continues to be difficult.
