

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date

08 Jul 2011

Direct to works rates were back across all categories as a number of processors reduced their rates. Soft export demand and the high A\$ continue to affect the market, while processors also have a good volume of cattle consigned for the coming weeks.

Quality is inconsistent due to the colder conditions, however the majority of cattle are carrying plenty of weight.
