

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### CTLX

report date 19 Jul 2011

Yarding Change 1350  
-280

comparison date 12/07/2011

Consignments eased and quality was also marginally lower compared to the last market. Percentage wise the younger drafts together with the older steers and cows were well supplied and the market trend was cheaper.

Vealer steers returning to the paddock eased around 15c with quality and breed contributing in places, to range from 182c to 208c/kg. The same weight heifer portion to restockers remained firm as those selling to trade orders lost 6c/kg. The heavy weights to the trade also found the competition tougher in places. Medium weight yearling steers to feeders lost 7c/kg with trade buyers also discounting the heavy weights although quality was also not to the standard of the previous market. Yearling heifers to feeders and the trade eased 6c to 10c/kg.

The better end of the grown steers to feeders eased 4c/kg, however the plainer lines suffered greater price losses. Heavy weight steers to slaughter sold a few cents either side of firm depending on age and finish as the best reached 185c/kg. Grown heifer remained firm.

Cows sold at similar rates as the plainer D2 pens averaged 131c/kg. The better finished D3 and D4 cows ranged from 130c to 149c as the C muscles reached 151c/kg.
