

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

# Great Southern Saleyard

report date 04 Aug 2011

Yarding Change  $\frac{1073}{261}$

comparison date 21/07/2011

Numbers increased as larger supplies of young store grades and cows were yarded. Slaughter classes of steers and heifers remained very moderate with a reasonable quality recorded.

Trade weight grass finished yearlings recorded solid local trade inquiry, while the store market continued to enjoy strong feeder and restocker inquiry.

Heavy weight steer, bullock and mature heifer sales were all cheaper, with this also the case in the cow and heavy weight bull markets due to conservative processor demand and competition.
