The slightly smaller and last of the fortnightly sales included very good supplies of young store grades and fair cow numbers, whilst heavy and trade weight steer and heifer numbers remained limited.

Trade weight grass steer quality was mixed and this affected price, while grass and grain assisted steer and heifer prices remained similar, selling to solid trade competition. The store market was again very well supported throughout the classes by both the restocker and feeder sectors.

Heavy weight export grades of cattle were firm to slightly dearer due to a solid trade competition.
