

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### New South Wales

report date 26 Aug 2011

Direct to works cattle rates were dearer for all categories as a number of processors adjusted rates. Cattle supply has been restricted and at times variable, which has enticed processors to lift rates in a bid to attract greater numbers. Additionally, rain over the past week may slow turn off, while also improving the grazing prospects through spring.
