

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

Queensland

report date 26 Aug 2011

Grass fed rates were mostly constant, however cow categories were slightly dearer in the north after one processor lifted rates. 100 day grain fed cattle edged higher as processors try to secure numbers for the coming weeks. Supply remains variable and sluggish export demand and the high A\$ has meant that demand is relatively stable.
