report date 27 Sep 2011

Yarding Change 887
-113

comparison date 20/09/2011

The number of cattle yarded was down, consisting of a good supply of young cattle and yearlings, while there was a smaller penning of grown cattle. There was a good run of supplementary fed and crop finished yearlings. Well bred cattle suitable for feeders, backgrounders and restockers came forward, however quality fell away fairly quick in the lighter young cattle.

Competition remained strong with vealers to slaughter holding firm as were restocker vealer steers, while well finished 3 score yearlings and heavy vealers met strong butcher and trade demand. Yearling steers were 3c to 6c dearer with medium weights topping at 237.2c and heavy weights selling to 223.2c/kg. Feeder steers and restockers saw little change with restockers selling to 240c/kg. Trade yearling heifers followed a similar trend to the steers topping at 225c/kg.

The yarding of export cattle consisted of several pens of supplementary fed and crop finished bullocks and steers and some good yielding cows. Bullocks and steers held firm topping at 198.6c to average 194c/kg. The cow market improved by 4c to 5c/kg.
