

Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

New South Wales

report date 16 Dec 2011

Rates were firm to slightly lower despite the widespread rain, as most processors kept rates stable. One contributor though dropped rates as they have enough cattle for the coming weeks. Quality is still of a high standard and the rain is expected to disrupt supplies for the holiday period.

Please note this is the final NSW OTH Cattle Report for 2011, the first report in 2012 will commence on Monday 9th January.
