

AuctionsPlus market comment week ending 12 Sep 2012

Sheep numbers declined steeply this week, totalling only 15,489 head, our smallest offering in recent memory. Chatter from the yards reports numbers have not declined too much in the physical market, and it seems many are willing to take their chances at the yards on the day, rather than hoping buyers will meet a reserve price. On the other hand, cattle numbers recovered to 4,410 head, with big numbers coming out of Queensland and northern NSW today, resulting in a the first two-sale day in the past month.

There were few sheep sales recorded over the three sales this week; the standout was an offering of Dohne cross ewes on Tuesday, with young first and second cross ewes back in lamb to Dohne making to \$118 at Brewarrina. Merino ewe offerings were slim, and only one lot achieved a result, these being mixed age ewes with Merino & Poll Dorset lambs at foot that made \$92.

Merino wether sales were restricted to two year olds, and prices ranged from \$47.50 for light, shorn wethers to \$60 for those that were better grown with an April skin.

Store lambs were also hard to find, with woolly 33kg mixed sexes at Coonamble making \$80.50.

The cattle market softened today, with lower clearance rates than we have seen in many weeks. Joined females were the hardest article to find a home for; however those with calves already at foot fared well. The sale toppers were six year old Angus cows and calves out of Victoria making \$1610; all lots that sold during auction were young Angus cows, and ranged upwards from \$1200.

Numbers of steers coming out of QLD jumped today, with 250-300kg steers averaging 201c, and 206c for the 300-350kg weight range. In NSW black steers weighing 250-300kg averaged 217c, and 300-350kg steers were back 5c on last week to 213c. An offering of early weaned calves from Taree, weighing 100-170kg, showed a range of prices depending on weight and breed, with the steers averaging 210c, and 195c for the heifers.
