

## Over the hooks report - cattle

Market information provided by MLA's National Livestock Reporting Service

### New South Wales

report date

13 Jan 2012

A slightly weaker trend was recorded across all categories in the New Year, with a number of processors lowering demand as normal trading conditions begin to resume. Cattle availability is adequate with processors reporting a solid level of consigned cattle for the coming weeks. Supply is also expected to pick up in the physical markets.

No trend is offered as this is the first report of 2012.
